They were welcome together with a new member, Ms. Ann Lowe, from the field of ISO/TC 145.

3 To approve Draft Agenda

JWG11 N57

The draft agenda was approved without change.

4 To receive reports on relevant activities since Treviso meetingJWG11 N53
3C/JWG 11(Stockholm/
Convenor)02**4.1 Activity in ISO/TC 145**

For the first place, Dr. D. Fishman, in his capacity of Secretary of ISO/TC 145 made a report from the last meeting in Treviso. Main point was project management on the newly approved project 80416-3. In correspondence with Secretary of IEC/SC 3C, both Secretaries agreed that IEC would be responsible for development and future maintenance of 80416-3. Secretary of IEC/SC 3C seconded.

4.2 Activity in IEC/SC 3C

Prof. H. Ikeda, in his capacity of convenor of JWG 11, reported on editing drafts FDIS 80416-1 and 80416-2 based on the document JWG 11 N53: Report from the last meeting in Treviso, which had been issued as JWG 11 N54 and JWG 11 N55 dated 2000-07-04, respectively. He also reported on the result of voting on NP 80416-3 being approved in IEC/SC 3C as well, and on editing a draft 1CD 80416-3 based on received National comments and observations, JWG 11 N56, result of which was made available as a working document 3C/JWG 11(Stockholm/Convenor)06 for discussion.

He continued his report in his capacity of Secretary of IEC/SC 3C that Secretariat of IEC/SC 3C had been transferred to Japan and Prof. H. Ikeda had been appointed as Secretary of SC 3C by the end of June 2000.

5 To confirm draft FDISs**5.1 IEC 80416-1: Basic principles for graphical symbols for use on equipment – Part 1: Creation of graphical symbols**JWG 11 N54
3C/JWG11(Stockholm/
Convenor)03
3C/JWG11(Stockholm/
Gast)07

The document JWG 11 N54 dated 2000-07-04 was reproduced as 3C/JWG11(Stockholm/Convenor)03 for confirmation. Minor editorial points including 3C/JWG11(Stockholm/Gast)07 were reflected to the document. The members were asked a validity date of a future IEC 80416-1 by this date maintenance of the publication should be completed, if needed.

RESOLUTION 1: *The validity date of IEC 60416-1 shall be 2003 by this date a future publication being maintained by IEC responsibility.*

RESOLUTION 2: *Including necessary editorial changes, JWG 11 N54 shall be submitted for FDIS 80416-1 circulation to ISO/TC 145 and IEC/SC 3C. Voting on the FDIS shall be synchronised in both committees.*

- 5.2 ISO 80416-2: Basic principles for graphical symbols for use on equipment – Part 2: Form and use of arrows** JWG 11 N55
3C/JWG11(Stockholm/Convenor)04

The document JWG 11 N55 dated 2000-07-04 was reproduced as 3C/JWG11(Stockholm/Convenor)04 for confirmation. Minor editorial improvements were reflected to the document. It was noted that since future ISO 80416-2 would be of ISO responsibility, the systematic review would be applied for maintenance.

RESOLUTION 3: *Including necessary editorial changes, JWG 11 N55 shall be submitted for FDIS 80416-2 circulation to ISO/TC 145 and IEC/SC 3C. Voting on the FDIS shall be synchronised in both committees.*

- 6 To discuss revised draft for ISO/IEC 80416-3: Basic principles for graphical symbols for use on equipment – Part 3: Guidelines for the application of graphical symbols** JWG 11 N56
3C/JWG11(Stockholm/Convenor)05 and 06
3C/JWG11(Stockholm/Gast)08 and 11
3C/JWG11(Stockholm/Viitanen)10

It was noted that ISO/IEC combined compilation and observation of the convenor on each comments was circulated as JWG 11 N56 dated 2000-07-04, which was reproduced as 3C/JWG11(Stockholm/Convenor)05. Convenor reported that no remarks were received on JWG 11 N56 from the members of JWG 11 prior to the JWG 11 meeting in Stockholm. A working document edited by convenor taking into account JWG 11 N56 was tabled as 3C/JWG11(Stockholm/Convenor)06 for discussion.

The meeting received a written comment from members Mr. Gast and Ms. Hooker, which were documented as 3C/JWG11(Stockholm/Gast)08 to delete subclause 4.4, which was not agreed. The two members proposed 3C/JWG11(Stockholm/Gast)11 to meet requirements of technical product committees together with additional proposal to improve the working document. They were basically agreed.

The meeting further received a proposal from a member 3C/JWG11(Stockholm/Viitanen)10 to include a new clause on "Use of other standardised symbol elements." After discussion, JWG 11 agreed together with the proposer that the item would not be included because it was irrelevant.

RESOLUTION 4: *JWG 11 agreed with the proposed improvements. Taking into account the proposals and discussions in the meeting, further revised draft shall be submitted as 1CD to ISO/TC 145 and IEC/SC 3C for circulation for comments.*

- 7 To discuss proposed new work item on ISO/IEC 80416-4: Basic principles for graphical symbols for use on equipment – Part 4: Supplementary principles for the creation of graphical symbols for use on screens and displays (icons)** JWG11 N38A

No progress was noted since the meeting in Kyoto in October 1999. Convenor was in question whether the members from German National Committee would still have intention to develop the last working document JWG 11 N38A. An answer was YES, thus FDISs 80416-1 and –2 would include in their respective part of FOREWORD's.

Under this agenda item, the works in ISO/IEC JTC 1/SC 35 were briefly reviewed.

- 8 Any other business**
No any other business.

- 10 Date and place of next meeting**

ISO/IEC JWG 11 would seek possibility to meet in Italy in Spring, possibly the last week of March 2000. Exact date and time would be tuned with other relevant meetings such as of ISO/TC 145 and IEC/SC 3C.

- 11 Close of meeting**

Convenor together with Secretary expressed thanks to the members for their contribution and patience. Convenor closed the two days meeting at 1900 hrs on 14th September 2000.
